

Wednesday 18th May, 2022.

Dear Parents/Carers,

Gemma's Farm

I am delighted to inform you that we will again be having a visit from Gemma's Farm on 28th and 29th June. Gemma's Farm being able to visit us will give your child that additional curriculum offer which has always been very successful and one the children thoroughly enjoy and learn from.

Gemma's Farm is a fun and educational mobile farm experience, which aims to provide a unique learning platform, that uses a combination of hands on animal handling and curriculum based activities to inspire children's minds and support their understanding of aspects of the Science curriculum.

There are a range of animals including sheep, goats, chickens, ducks, ferrets, rabbits, a pony and any young that they may have. Farmer Gemma's best friend 'Blue' her border collie will also be with them.

A contribution of **£2 per child** is requested to cover the cost of this experience plus the necessary insurance. **If sufficient monies are not received to fund this event** we will have no alternative than to cancel this. If you have any difficulties making a contribution to cover the cost of this experience, please contact the school office in confidence.

This payment item is available from today on your ParentPay account for contributions towards this exciting event. Please log into your ParentPay account, go to your child's account and 'Pay for other items' in order to make the payment. If you are unable to use ParentPay, please speak to the school office who will be able to assist you. Your support is greatly appreciated as events such as this cannot go ahead without parental support.

Yours sincerely,

Miss Dixon

Science Co-ordinator
