RWInc Virtual Classroom KS1

As part of the children's home learning a weekly link to the RWInc Virtual Classroom will be uploaded as an activity on SeeSaw.

This link will allow you to access a short teaching video for your child to watch and join in with.

The video's will cover sounds and activities that the children have already been taught in school.

These are a fantastic opportunity to find out what your child has been learning in school as well as enabling them to further embed the learning.

Thank you for your continued support
