

Thursday 16th September, 2021

Dear Parents/ Carers,

This year we are continuing our Maths home learning scheme which we hope will help enhance the Mental Arithmetic abilities of all our children.

This will follow them through their journey at Hamstel Infants; starting from Nursery and continuing through and into Year 2.

Each half term, your child will bring home a Key Instant Recall Fact sheet (KIRFs) with a half termly focus for you to practise at home with your child. This is intended to be short, snappy sessions as often as you are able during your day and week. This will also be taught in class and the children will be receiving rewards based on their participation and hard work. The attached information sheet contains all the key information needed to practise and learn at home and will include some fun activities to get you started.

Along with this, your child will also be receiving their login to either TT Rockstars or Numbots so children can continue to learn in a fun exciting way!

We hope you enjoy learning with your child!

Many thanks,

Miss N Goodman
