

Friday 17th December, 2021.

Dear Parents/Carers,

Request for Information Regarding Potential Key/Critical Worker Status.

To prepare for any possible changes in public health/government advice for the start of the Spring Term in January we feel it is sensible to review our existing contingency plans. We want to be well prepared to implement them in case of any changes.

During previous public health restrictions schools have provided on-site learning for children of key/critical workers, although we have no details of how any future restrictions would work gathering this information from you now is a good place to start.

We know whatever happens schools will continue to play a vital role in their local communities. Central to this will be to offer provision at school for identified families.

If you think you may qualify because of the job you do please complete the form using the links below as fully as possible by 12 midday Tuesday 18th December 2021. School will not be open so we will not be able to answer any queries you have regarding this but we will be in contact with all our families through ParentPay email if there are changes to school opening in January.

We sincerely hope that school will open as normal on Tuesday 4th January 2022 and stress that we are only gathering this information to be as prepared as possible for any eventuality.
